Subject: RE: Interim Comments on TZW Data Report
Date: 09/19/2006 03:39 PM

Sorry Eric - I am swamped in DEQ guidance issues and will not be able to get you anything this week. However, the discussions from the meetings, as well as all the past stuff we have put together should be a good starting point. It seems like we have put together multiple risk comments together in the past. Have they responded to our SAP comments yet?

-Jennifer

Subject: Interim Comments on TZW Data Report

I am sending this email to the ERA and HHRA groups to remind you that interim comments on the risk framework aspects of the TZW Data Report are due. As I have indicated previously, it would be helpful if the risk framework comments were in the form of questions. I am still shooting for sending the comments out by Friday. Please get me your risk questions and other risk framework comments by Thursday. My hope is that this will serve as a springboard for resolving the TZW risk framework.

Cinde and/or Chris - can you please forward to Pam; I believe I have Pam's old email address and get nothing but error messages.

Thanks, Eric
